The Idea

In implementation of directives of His Excellency Minister of Environment, Water & Agriculture of holding fisheries exhibition, the National Fisheries Development Program will organize a remarkable event to highlight the importance and sustainability of fisheries sector, how to leverage and fully exploit these untapped resources to advance the associated economic sectors. The event will further underline numerous advantages of the Saudi Arabia's strategic location by organizing a major exhibition that will bring to together various sectors and activities in one place. A conference, on sidelines of this landmark event, will be held with aim attracting international best experience and global expertise to discuss new developments and emerging issue in the international arena. It will mainly focus on aquaculture, marine fisheries and other significant topics.

Why SIMEC?

No other event or gathering has ever brought together all sectors and activities associated to marine fisheries and aquaculture sector in one place.

Vision

Leadership and excellence in organizing international events for scientific experience sharing and showcasing investment opportunities to promote economic growth in fisheries sector and realizing SDGs locally, regionally and globally.

Objectives

- 1- To provide an annual platform for professional and scientific discussion between fisheries sector and key players.
- 2- To promote domestic and foreign investment in aquaculture sector.
- 3- To establish connection with key local decision makers in fisheries and other associated industries.
- 4- To showcase state -of- the art marine products and cutting- edge aquaculture technologies.

The Exhibition

Supervised by

The program aims to reach the fisheries industry in the Kingdom of Saudi Arabia to the ranks of the developed countries that preceded the Kingdom in this field. Perhaps the focus of efforts in accordance with the Vision 2030, which the fisheries sector has allocated an ambition to become an economic growth tributary achieving food security in the Kingdom of Saudi Arabia.

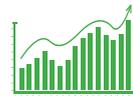

The work of the program stems from the umbrella of the Ministry of Environment, Water, and Agriculture in coordination with the relevant direct and competent authorities (the Food and Drug Authority - Ministry of Health - Ministry of Education - Ministry of Commerce), and the work of the program is in three main areas:

1

Enhancing the added value of natural national resources by enabling the private sector through legislation, facilities and recommendations to advance the sector and achieve the goals set.

2

Increasing the volume of investment in this field by introducing the available opportunities and attracting the foreign specialized investor to make an addition in the growth of the fisheries industry.

3

Raise awareness about safe seafood products by encouraging consumption.

Market Review

Saudi Fisheries and Aquaculture

%65

The ratio of total imports of fisheries.

282,000
Tons
